

Love + Memories

Lyrics Sheet

[Verse 1]

In the hollow of my mind, where shadows softly fall
I find your whispered name, echoing through it all
A fleeting memory, a glimpse of what we used to be
A love that's lost in time, yet still I'm searching for thee

[Chorus]

Oh, the ghosts that we've created, in the silence of our past
Fading like the moonlight, forever cast
In the darkness, I'm reminded, of the love we had found
A dream that's lost in time, spinning round and round

[Verse 2]

Moonlit nights, and whispered secrets, in the silence of our home
I hear your voice, a haunting melody, forever to roam
A bittersweet reminder, of the love we used to share
A love that's lost in time, and yet I still remember we care

[Chorus]

Oh, the ghosts that we've created, in the silence of our past
Fading like the moonlight, forever cast
In the darkness, I'm reminded, of the love we had found
A dream that's lost in time, spinning round and round
