

Nature

Lyrics Sheet

[Verse 1]

Snowflakes gently falling slow,
Blanketing the world below,
Frosty mornings, dark and cold,
Winter's peaceful silence holds.

[Chorus]

In the stillness of the night,
Stars shine softly, a gentle light,
Guiding me to a place of peace,
Where love and calm entwine and cease.

[Verse 2]

River whispers through the trees,
Leaves rustling softly in the breeze,
The scent of pine, a forest deep,
A world of calm, our spirits keep.

[Chorus]

In the stillness of the night,
Stars shine softly, a gentle light,
Guiding me to a place of peace,
Where love and calm entwine and cease.
